

C5 Special Ceylon Cinnamon quills

C5 Special sits between Alba and C5: fine quills with a smooth surface at a lower price than Alba. It is a common choice for retail packs and for food manufacturers who want a presentable quill without paying for the thinnest grade.

PRODUCT	C5 Special Ceylon Cinnamon quills (fine grade)

About the values on this sheet

Published grading references are indicative. The specification guaranteed for your shipment is the one confirmed in your quotation and approved sample. Appearance grade alone does not establish chemical or food-safety properties. Tests required for your market are agreed before order acceptance. This sheet is generated from the CeySpice product record (revision 2026-10-17, owner: CeySpice operations (Shanu Silva)); the website, quotations and this document carry the same values.
